

3rd Grade Art Final Project

This project will be the basis of your art grade for the month of May due to the amount of time that will be spent on it. This is a favorite project for students and staff alike!

Directions: Using the proportion worksheet and Mrs. Willoughby's video on youtube, draw a portrait of your assigned staff member using pencil. You will then use your choice of crayon, colored pencil, or marker to color it in.

I will send the video link through your homeroom teacher's clasdojo or classtag. I will also be sending out some zoom invitations to be available to help you if needed. Please watch for those.

Remember, that your portrait should take up most of the space on your paper, and have fun! Contact me with any questions at willoughbyk@psarrows.com.

Your assigned staff member is _____
