Meeting Summary

The meeting began with Superintendent Matt Bishop welcoming the team members. He introduced Jeff Parker and Todd Thackery from SHP Leading Design to lead the evenings activities.

Jeff and Todd reviewed the “ins” and “outs” of working with the Ohio Facilities Construction Commission (OFCC) and the first meeting of the CAT. They reviewed the pros and cons of the last plan that was presented to the voters. They finished by sharing what we value as a district. Please see the presentation document for more detail.

The main activity for the evening focused on considering options/solutions. Advisory team members at the tables were asked to consider renovation or replacement of our buildings, the number of buildings we should have, the grade levels assigned to each building, and the location of the building(s). Each table shared their solutions for consideration.

The results of the activity, as well as the previous CAT meeting results, will be shared with the community at the next forum on November 5th.
