Title I Program:

The Preble Shawnee School District prides itself on providing all students with an individualized academic program. Assessments of all students ensure that each child receives services to encourage student learning and academic achievement. The Title I intervention program supports identified students by monitoring each child's academic progress and providing the child with more individualized instruction.

Selection to participate in the Title I program is based upon a multi-criteria process. Review of your child's academic progress, teacher recommendation, and the results of the mandated assessment, EasyCBM, are utilized. Students participating in the Title I program will receive additional academic support from a certified teacher using the following methods:

- Monitoring by the classroom teacher
- Small group instruction
- Targeted English Language Arts and Mathematics classes

The students who participate in the program are not singled out, labeled, or identified in any manner.

If you have any questions or concerns, please contact us at your convenience.

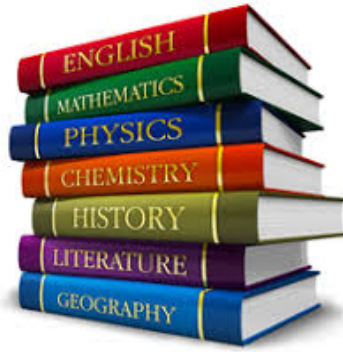

Sincerely,

The Title I Teachers of Preble Shawnee Middle School
